As the influence of Aquarius gets stronger (and so is the parallel influence of the so-called 'Seventh Ray of Order') Humanity has to release itself from the bonds of the last Piscean Era, and also from the influence of the 'Sixth Ray of Idealism or Devotion'. These two Rays are part of the septenary influences that rule our Universe or, at least, our Solar

System. I don't want to deal with them except as it is necessary to give some idea about how these combined energies are affecting the Human Race in this period of transition. We are being carried in a wave that can be regarded as positive compared with the negativity of Pisces (in terms of polarity). The last Era was one of feeling, of inner sensitivity to the influences brought (or channelled) for the first time into our planet by means of the Christ, (or Lord Maitreya) who is, since then, the main focus for it. That new and subtle energy of 'Love-Wisdom' had to be slowly assimilated by the collective heart and soul of

Humanity. Our race had two thousand years to meditate about that phenomenon, and that created a massive expression of devotion towards that being that is the Christ. Even if He was not fully understood (because he didn't put emphasis on knowledge for the concrete mind), His life and circumstances had a strong impact on

the emotional side of Humanity as a collective being. That was exactly what it was expected under the influences of those two powerful energies that are now receding (Pisces and the Sixth Ray). Now, the incoming energies of the Seventh Ray of Order and of Aquarius have a strong effect on the mind of Humanity, and what it was vaguely perceived by a developing intuition and expressed by the collective emotional nature of the Human Race (the inflow of Love-Wisdom through the Christ in the beginning of the Piscean Age), it has to be fully understood now through the mind. The preparatory work has been done for almost two centuries. Some of the most important universal concepts had to be slowly developed by the mind of the Human Race, and those are the concepts of Electricity and of Energy, in their most subtle manifestations. Also, we needed a strong technological advancement, so that we: 1) would be able to understand some of the phenomena that were expected to manifest in this Era (like UFOs), and 2) so the gaps that separated humanity would slowly disappear (all the communication mediums that were developed in this two centuries had this effect). Aquarius represent at the same time the 'Water of Life' (a symbol which in reality is not water, but energy waves) and the medium that life or energy, uses to be distributed. This 'Water of Life' is a new incoming energy that needs an adequate medium of transmission and, if you wish, an adequate receptacle. Any Astrologer will notice the Piscean note that this last term carries. It gives an idea of something being poured and hold, which is the opposite of the 'modus operandi' of Aquarius. We have to realize that we (Humanity) are not the final destiny of the new energies and the awareness that comes with it. We are at the same time the receptors and the transmitters, but we have to put an emphasis on the later activity, which is positive and it means some type of emission, instead of being receptive and accumulative. Now the time has come for the Human race to understand scientifically the sources of Cosmic Life and Purpose. It has to know which are the instruments for the transmission of the 'Water of Life' to our own Planet. It has also to know also that every human being has the equipment to receive that energy and transmit it consciously and with intelligence. The 'electric body' has to be understood and, finally, used with clarity of purpose. The energetic body of human beings, plus its physical duplicate has to be

finally ruled by the mind, which is the link to our Higher Self. The mind and the energy of Aquarius was mentioned by Jesus as 'the water bearer at the doors of the city (the bodies mentioned)'. Some study on how this man (representing Aquarius) is related with the gathering of the Master and disciples (or the fusion of energies) will be of much benefit.

E.G.
